OVERVIEW:

Sumo-bot wrestling is a contest where two previously programmed LEGO Mindstorm (NXT or EV3) robot contestants try to push or flip each other's robot out of a circular ring. The first robot to have its tires or tracks completely out of the ring or is rendered immobile, loses. The last robot remaining in the ring or mobile wins.

***There are only 6 slots available for each Junior, Intermediate and Senior level teams. The first 6 paid and registered teams for each level will be guaranteed a tournament slot. After that, your team will be placed on a waiting list.**
